AMENDMENTS

In the Claims

The following is a marked-up version of the claims with the language that is underlined ("___") being added and the language that contains strikethrough ("——") being deleted:

- 1.-13. (Canceled)
- 14. (Previously Presented) A printing system comprising:
 - a first peripheral device comprising:
 - a processor for receiving a data stream through a network;
 - an encryption module for converting said data stream from plain text to cipher text;
 - memory for storing the cipher text until access to said cipher text by a user is authorized;
 - a printing mechanism for printing a hardcopy document corresponding to the cipher text; and
- a sender module for transmitting said cipher text through said network to a preselected recipient as an attachment to an email message.
- 15. (Original) The system of Claim 14, wherein said data stream comprises text and graphics.
- 16. 17. (Canceled)

- 18. (Previously Presented) The system of Claim 14, wherein said encryption module comprises the pretty good privacy (PGP) encrypting technique.
- 19. (Original) The system of Claim 14, wherein said sender module converts said cipher text into a PDF or TIFF file and transmits said PDF or TIFF file to said preselected recipient.
- 20. (Canceled)
- 21. (Previously Presented) The system of Claim 14, further comprising:

a manual input device operative to receive an input from a user such that, if a user provides an input to the manual input device indicating that the user is an authorized user, the cipher text stored in the memory can be accessed.
